HORVITZ-THOMPSON AND UNEQUAL PROBABILITY SAMPLING BIBLIOGRAPHY
1943-Present
(163 entries)

1. Misc 1. Miscellaneous notes

2. Misc 2. More on unequal probability designs.

3. Hansen, M.H. and Hurwitz, W.N. (1943) "On the theory of sampling from finite populations". *The Annals of Mathematical Statistics 14(4): 333- 362.*

4. Lahiri, D.B. (1951). A method of sample selection providing unbiased ratio estimates. *Bulletin of the International Statistical Institute* 33(2): 133-146.

5. Midzuno, H. (1951) "On the Sampling System with Probability Proportionate to Sum of Sizes". *Annals of the Institute of Statistical Mathematics.* 2:100-107.

6. Narain, R.D. (1951). On sampling without replacement with varying probabilities. *Journal of the Indian Society of Agricultural Statistics* 3: 169-174.

7. Horvitz, D.G. & Thompson, D.J. (1952). A generalization of sampling without replacement from a finite universe. *Journal of the American Statistical Association* 47(260): 663-685.

8. Durbin, J. (1953). Some results in sampling theory when the units are selected with unequal probabilities. *Journal of the Royal Statistical Society–Series B* 15(2): 262-269.

9. Sen, A.R. (1953). On the estimate of the variance in sampling with varying probabilities. *Journal of the Indian Society of Agricultural Statistics* 5: 119-127.

10. Yates, F. & Grundy, P.M. (1953). Selection without replacement from within strata with probability proportional to size. *Journal of the Royal Statistical Society–Series B* 15(2): 253-261.

11. Grundy, P.M. (1954). A method of sampling with probability exactly proportional to size. *Journal of the Royal Statistical Society–Series B* 16(2): 236-238.

12. Raj, D. (1954a). On sampling with varying probabilities in multistage designs. *Ganita* 5: 45- 51.

13. Raj, D. (1954b). On sampling with probabilities proportionate to size. *Ganita* 5: 175-182.

14. Raj, D. (1954c). Ratio estimation in sampling with equal and unequal probabilities. *Journal of the Indian Society of Agricultural Statistics* 6:127-138.

15. Yamamoto, S. (1955). "On the theory of sampling with probabilities proportionate to given values". *Annals of the Institute of Statistical Mathematics (Japan)* 7: 25-38.

16. Raj, D. (1956). Some estimators in sampling with varying probabilities without replacement. *Journal of the American Statistical Association* 51(274): 269-284.

17. Murthy, M.N. (1957). Ordered and unordered estimators in sampling without replacement. *Sankhya* 18: 379-383.

18. Raj, D. (1958). On the relative accuracy of some sampling techniques. *Journal of the American Statistical Association* 53(281): 98-101.

19. Rao, J. N. K. (1961) "On the estimate of the variance in unequal probability sampling". *Annals of the Institute of Statistical Mathematics.* 13:57-60.

20. Hanurav, T.V. (1962a). On 'Horvitz and Thompson estimator'. *Sankhya Series A* 24: 429-436.

21. Hanurav, T.V. (1962b). Some sampling schemes in probability sampling. *Sankhya Series A* 24: 421-428.

22. Hartley, H.O. & Rao, J.N.K. (1962). Sampling with unequal probabilities and without replacement. *Annals of Mathematical Statistics* 33: 350-374.

23. Rao, J. N. K. (1962) "On the estimation of the relative efficiency of sampling procedures". *Annals of the Institute of Statistical Mathematics.* 4:143-150.

24. Brewer, K.R.W. (1963). A model of systematic sampling with unequal probabilities. *Australian Journal of Statistics* 5: 5-13.
